

Dove Field iSportsman Checkin/out Guidance

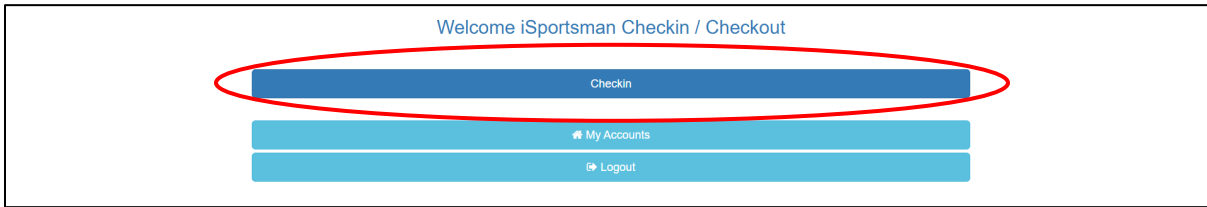

All recreators accessing dove fields MUST check in/out using iSportsman. Hunters can only checkin to the dove field they have a permit for, can only be checked into one area at a time, and must report dove harvest and hunting effort. **Failure to checkin/out may result in temporary suspension of recreation access privileges.** Steps for checking in/out are as follows:

- 1) Log into iSportsman and click on “Checkin/Checkout” button.

Important Reminders:

- Customers must have a current background check, UXO Safety Briefing viewing validation, and recreation permit to see checkin/out options.
- Non-hunting recreators can checkin to dove fields as a recreator and do not count towards the total 40 hunter daily quota/field (ex: wife who wants to watch but not hunt).
- Phase 1 Dove Hunting is allowed from noon until sunset only. However, checkin/out is allowed 2 hours before sunrise to 2 hours post sunset.
- Failure to checkout will result in the following:
 - iSportsman will automatically check you out, but will then place a 72-hour hold on your account which prohibits you from checking in/out again for any activity anywhere on Eglin until your account has been cleared by an administrator.
 - Failure to checkout may result in temporary recreational access suspension.
