Dove Field iSportsman Checkin/out Guidance

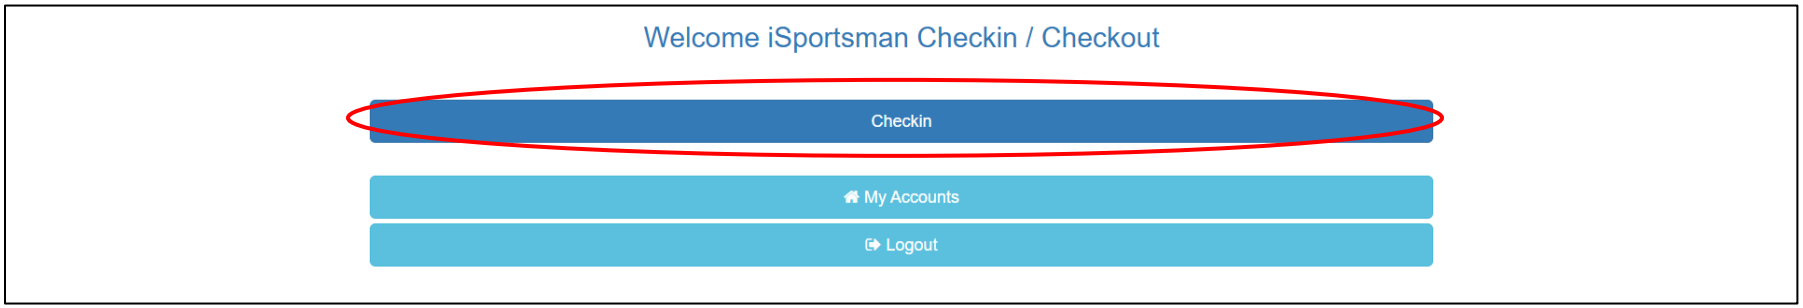

All recreators accessing dove fields MUST check in/out using iSportsman. Hunters can only checkin to the dove field they have a permit for, can only be checked into one area at a time, and must report dove harvest and hunting effort. Failure to checkin/out may result in temporary suspension of recreation access privileges (see additional guidance on last page). Steps for checking in/out are as follows:

NOTE: Images below are when checking in/out from a computer. If checking in/out from a mobile device, the interface looks slightly different but directions below still apply.

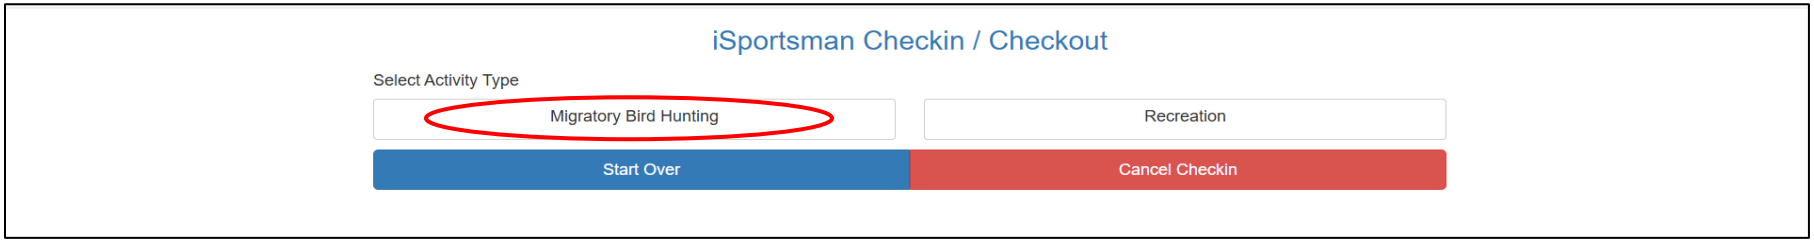

1) Log into iSportsman and click on **"Checkin/Checkout"** button.

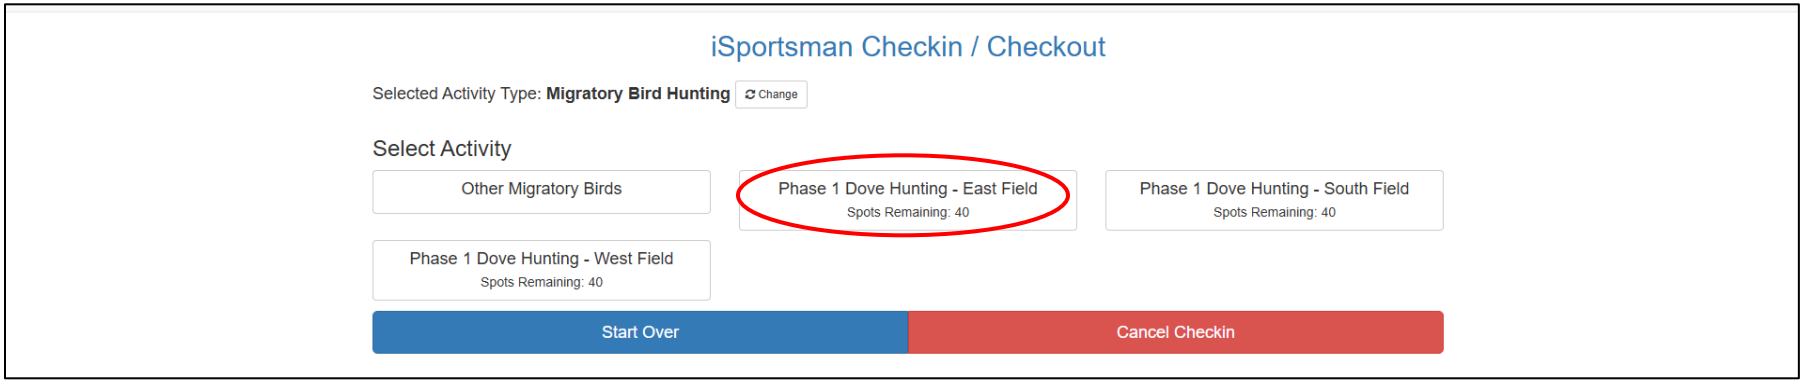

2) Click the **"Checkin"** button.

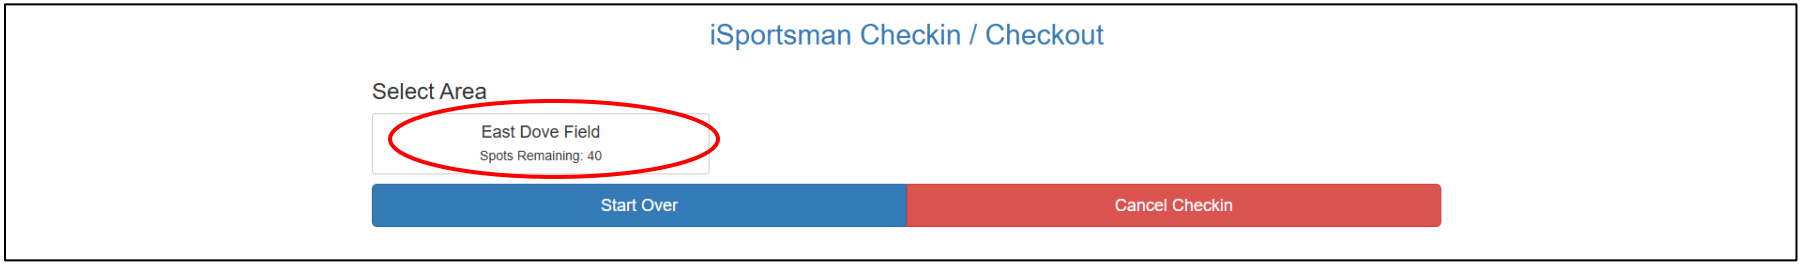

3) Click **“Migratory Bird Hunting”** button.

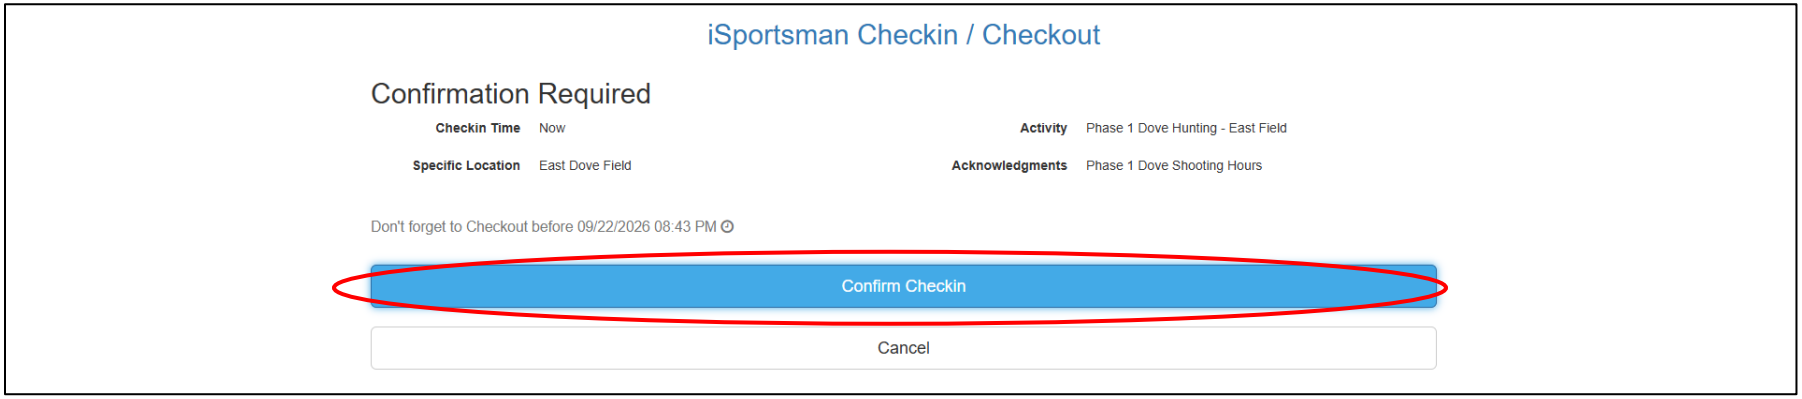

4) Click **“Phase 1 Dove Hunting”** button for the dove field you are permitted to hunt.

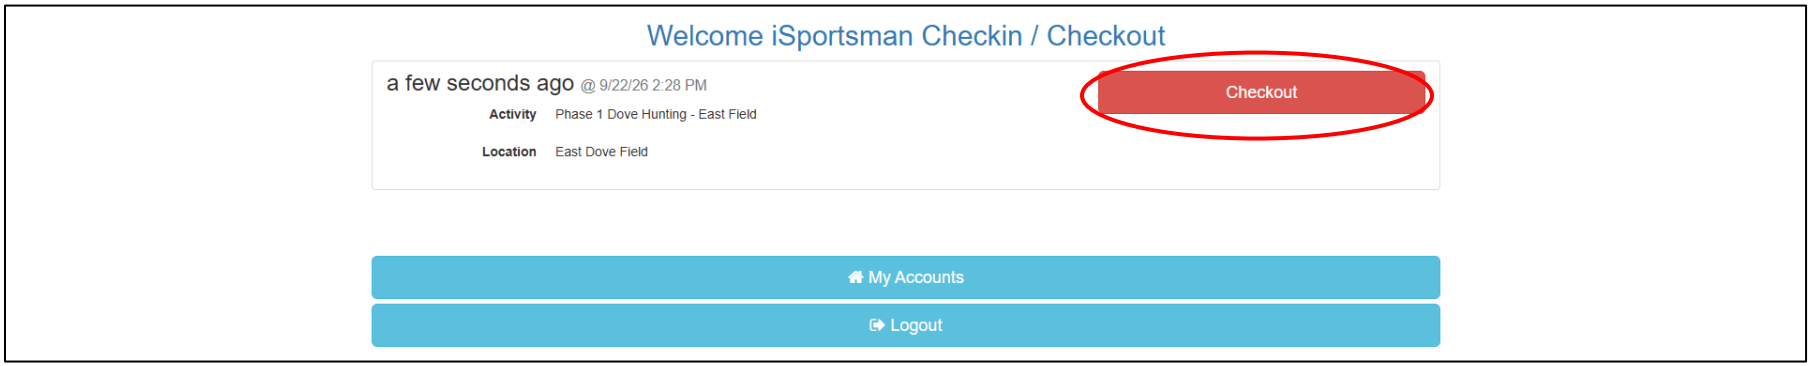

5) Choose the dove field you are permitted to hunt.

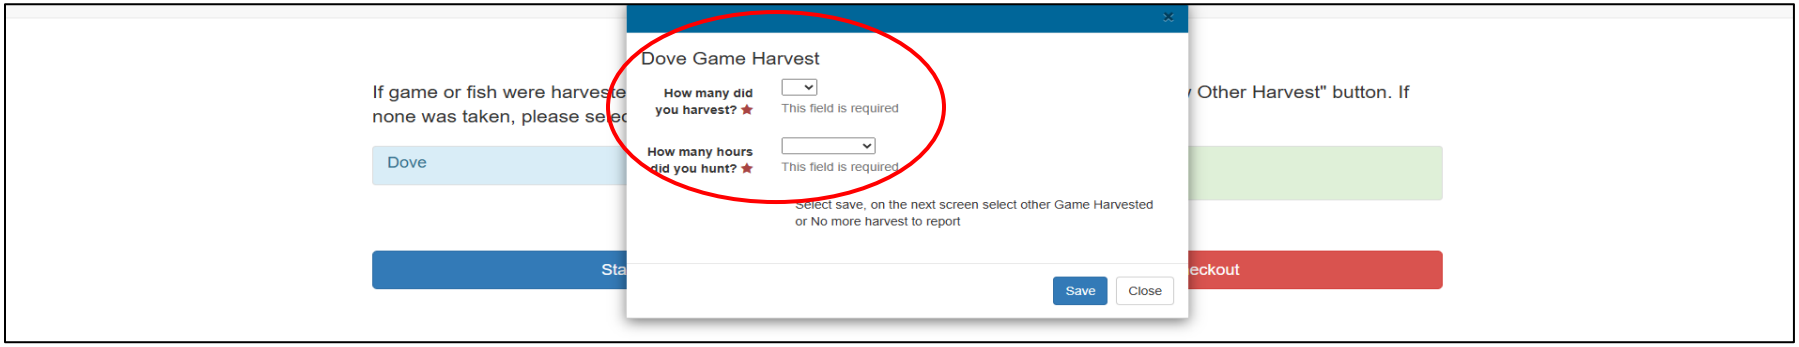

6) Click **“Confirm Checkin”** button. You are now checked in!

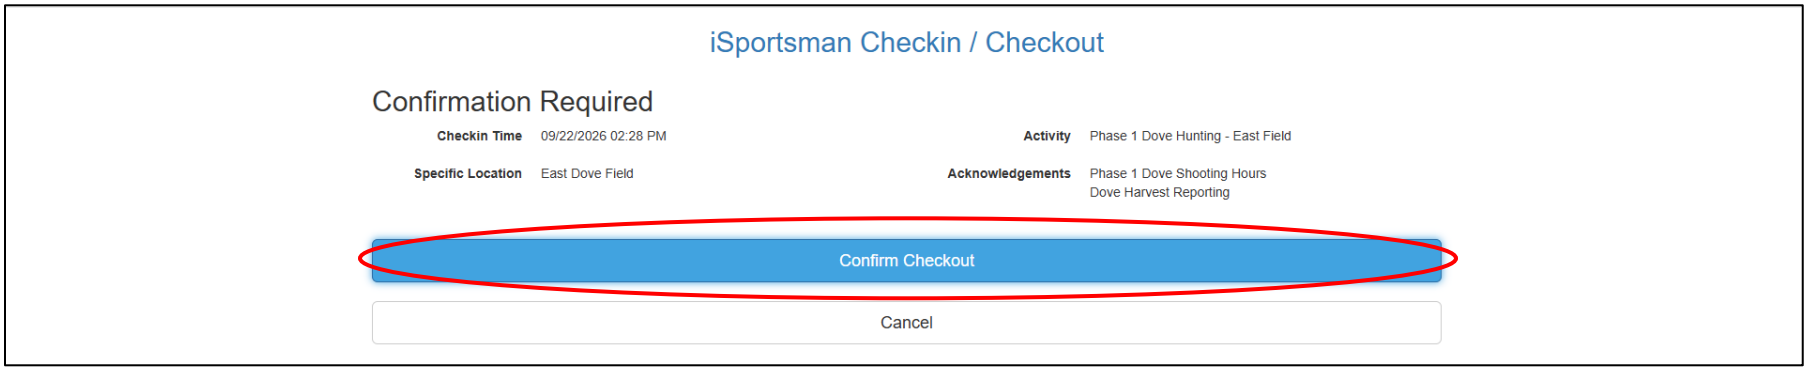

7) To checkout, log back into iSportsman and click on **“Checkin / checkout”** button. Then click the **“Checkout”** button.

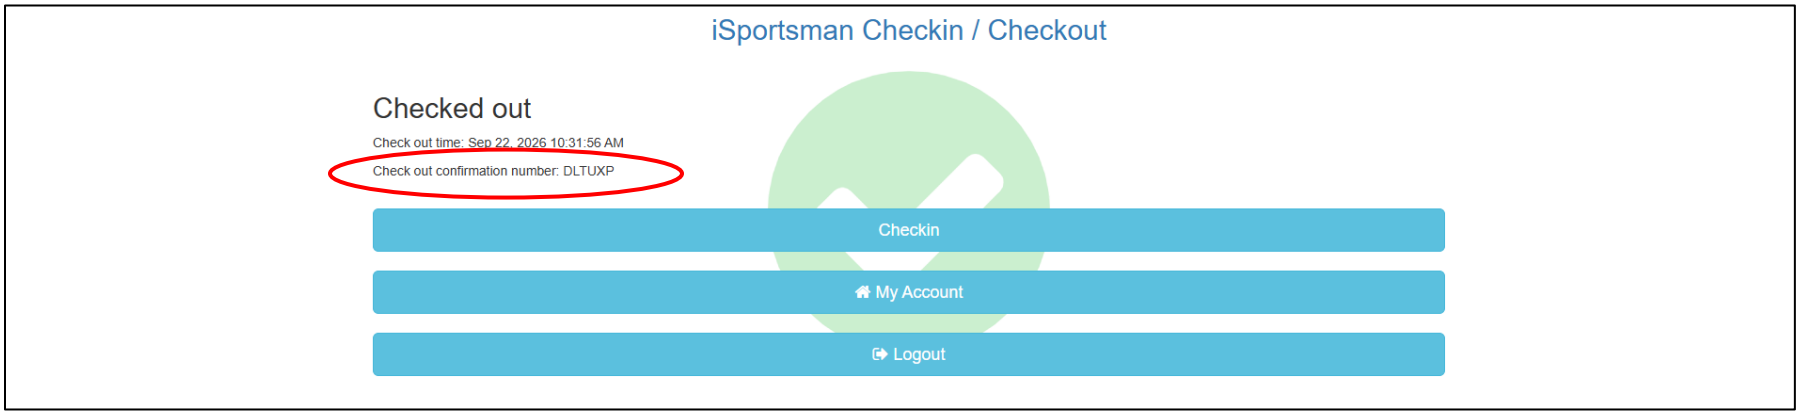

8) Enter number of doves harvested and approximate time spent hunting.

9) After entering harvest data, click **"Confirm Checkout"** button.

10) A successful checkout results in a unique confirmation checkout number. **If you do not receive this number, your checkout was NOT successful.** Repeat steps above until you receive a checkout confirmation number.

IMPORTANT REMINDERS:

- Customers must have a current background check, UXO Safety Briefing viewing validation, and recreation permit to see checkin/out options.
- Non-hunting recreators can checkin to dove fields as a recreator and do not count towards the total 40 hunter daily quota/field (ex: wife who wants to watch but not hunt).
- Phase 1 Dove Hunting is allowed from noon until sunset only. However, checkin/out is allowed 2 hours before sunrise to 2 hours post sunset.
- **Failure to checkout will result in the following:**
  - **iSportsman will automatically check you out, but will then place a 72-hour hold on your account which prohibits you from accessing any portion of the Reservation during that 72-hour period. It also prohibits you from purchasing any new recreation permits. You should receive an automatic email from iSportsman notifying you of the failure to checkout and account hold. After 72 hours the hold will be automatically lifted.**
  - **Multiple failures to checkout may result in recreational access suspension up to 6 months.**
